Paul and Leslie,

I will not be able to deliver the reclamation recalculation documents for Round Valley and Poverty Point limestone quarries by January 18, 2016.

I was to optimistic in my date projection and apologize for this. May I please request an additional extension to February 12, 2016.

We have made the RS Means calculations for the two properties with expected large increases. I request time to discuss these increases with all the stakeholders for accuracy before submitting.

May I please have an extension to February 12, 2016?

The week of February 1, 2016 is the earliest I can meet with the stakeholders.

Letters can be mailed to you today.

Again my apologies for this request.

Your help on this matter is most appreciated.

Tom Newman
Chief Geologist

Any concerns if we give the extension?
